

Price Benchmark & Value Report:

DeltaMath

Proven learning you can trust | Grades: 6-12

Price Benchmarks:

License Type (Individual)	Average Price
Teacher	Free
Plus	\$110
Integral	\$170

License Type (District/School)	Lowest Price (Unit)	Highest Price (Unit)	Average Price (Unit)
Teacher	Free		
Plus	\$2		
Integral	\$3	\$170	\$7

Insights:

- Leverage bulk licensing to secure lower per-student prices, as districtwide licenses can offer significant cost savings compared to smaller packages.
- Clarify product-specific pricing tiers to negotiate better rates by understanding the range of pricing for different products like DeltaMath Plus and Integral, and the features each package includes.
- Negotiate discounted renewal rates by emphasizing your existing relationship with DeltaMath and committing to multi-year agreements to reduce the cost of renewing licenses.

Product Value Score: **B**

The benefit that an organization receives from this product in satisfying their unique needs, solving specific problems, and achieving desired goals based on multiple data sources and signals.

Product Ratings:

B – Learning Effectiveness and Impact

B – Data Privacy
