

Price Benchmark & Value Report:

Istation → Math

Increase Math Achievement and Address Unfinished Learning in Your Schools

Grades: PK-8

Price Benchmarks:

License Type	Lowest Price	Highest Price	Average Price
1-year	\$6	\$36	\$24

Insights:

- Bundling Math and Reading may encourage discount opportunities.
- Site-based licenses can offer lower per-student pricing in some cases, though this model can result in higher costs per user—potentially around a 129% increase compared to the average price.
- Regional pricing differences are not readily apparent.

Product Value Score: **B**

The benefit that an organization receives from this product in satisfying their unique needs, solving specific problems, and achieving desired goals based on multiple data sources and signals.

Product Ratings:

B – Learning Effectiveness and Impact

B – Functional / Procurement Capabilities

I – Product Security

C – Data Privacy
